

Welcome to Beverly Hills Fertility,

In preparation to your initial consultation, please complete the attached New Patient Paperwork packet prior to your appointment and provide the office with a copy of the front and back of your Insurance Card and Identification Card. For International patients ONLY, please provide the office with your Passport.

During your new patient consultation, please expect to be at our office for about 45 mins to 1 hour. A vaginal ultrasound to assess your ovaries will be performed and is included with your new patient consultation fee. It is recommended that your new patient consultation be scheduled during day 3-11 of your menstrual cycle so we can have a better antral follicle count during your ultrasound. Your physician will have the opportunity to review your medical history as well as review any past medical records you provide. Afterwards, your physician will be discussing your specific protocol and treatment plan with you. If you agree with the treatment plan and would like to move forward, we will be drawing up preliminary lab work, such as genetic carrier screening and an infectious disease panel.

Although not required, it is highly recommended that both partners be present at the initial consultation. As a courtesy to patients on our waiting list, we ask you to inform us at least 48-72 hours (about 3 days) prior to your appointment if you are unable to attend. We do require a credit card authorization on file which will be ran for \$100 if you cancel one day prior to your appointment, or the day of your appointment. This fee will be credited towards your consultation or your treatment.

If you have any questions, please feel free to contact our office back at (323) 985-7000. Please visit our website for more information at www.beverlyfertility.com. We look forward to meeting you and helping you create your miracle family.

Sincerely,
The Staff at Beverly Hills Fertility
